

Credit Name:CSE 3120 Object-Oriented Programming 1

Assignment Name: LunchItem.java

Error Log Entry

What error message did you encounter (if any)?

What unexpected behavior did your program exhibit?

It wouldn't display the fat as a .0 it only would print the number

What caused the issue? (e.g., syntax error, logic error, incorrect function usage, etc.)

Logic error

Include a screenshot of specific lines of code.

```
private int fat;  
public LunchItem(double price, int d  
this.fat = d;  
public int getFat()  
{  
    return fat;  
}
```

How did you fix the issue?

I changed the codes that said int to double

Provide the corrected code or solution using a screenshot.

```
private double fat;  
public LunchItem(double price, double d  
this.fat = d;
```

```
public double getFat()  
{  
    return fat;  
}
```
